Pilot Training on Conducting a Decision-Making Ability Interview for NYC Adult Protective Services

Feedback on Knowledge: Pre-test at Beginning of Day 1 – October 7, 2016 and Post-Test on Day 2 - December 9, 2017

Completing this feedback form is voluntary and will have no impact on your standing as an NYC APS employee, and you may stop filling out the feedback form at any time. By completing this feedback form you are agreeing to allow your answers to be used for research purposes. All information will be kept confidential and will be stored on password-protected computers. Your responses are greatly appreciated.

Circle each answer: **T** for true or **F** for false.

1. **T**  **F** If a person has significant cognitive impairment, h/she would definitely lack capacity to make decisions.

2. **T**  **F** If a person understands a problem in general, h/she would then also understand how it applies to him/her personally.

3. **T**  **F** The value of gathering information about decision-making abilities is only to determine whether or not to refer to HRA psychiatry.

4. **T**  **F** If a person is able to state a decision about what to do about a risk she/he is facing, the person is definitely demonstrating decision-making ability.

5. **T**  **F** It is possible for a person to have adequate decision-making ability and still make a decision that puts him/her at risk.

6. **T**  **F** If a person lacks adequate decision-making ability to make one decision, h/she lacks adequate decision-making ability to make other decisions.

7. **T**  **F** An APS caseworker’s documentation obtained during a person’s interview can be used in court.

8. **T**  **F** If a person has no cognitive impairment, h/she would definitely have the capacity to make decision(s) regarding risk.
